8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____.

REASONS FOR ALLOWANCE

Terminal Disclaimer

1. The terminal disclaimer filed on 7/19/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Pat. 6,721,296, and 6,456,609 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Drawings

2. Figures 13-19 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-12 are allowed.

4. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses or suggests a radio frequency demodulator for demodulating a radio frequency band signal received from the base station by use of a first signal from the oscillator; a radio frequency modulator for modulating a second

signal to be transmitted by use of the first signal from the oscillator; and wherein an oscillation frequency of the oscillator is controlled by use of a change of phase shift detected using the demodulated radio frequency band signal received from the base station, as recited in claims 1, 4, 7. None of the prior art further discloses a demodulator for demodulating the received signals using a signal from the oscillator; a frequency correction circuit for controlling an oscillation frequency of the oscillator to correct frequency error based on a detected phase of the demodulated signal; and a phase correction circuit for correcting a phase of at least a part of the demodulated signals based on the detected phase of the demodulated signal, as recited in claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to KHAI TRAN whose telephone number is (571) 272-3019. The examiner can normally be reached on 7:00AM - 4:30PM.
